

STN[®]

THE CHOICE OF PATENT EXPERTS[™]

探索 New STN NO.1 201506

MERS 中東呼吸系統症後群

1 選擇資料庫:

CAPLUS & DWPI 為經過人工整理閱讀過的資料庫。

BIOSIS、EMBASE 和 MEDLINE 為

Biomedical & Pharmacological 類別的資料。

CABA 為 Life Science 類別的資料庫。

2

預查詢文獻下指令：

3

查詢結果:

4 由 COUNTS 可得知關鍵字於不同欄位的筆數:

CAplus	18
DWPI	6
(2015/PY) and ((MERS/BI) or (MERSES/BI)) and ((vaccine/BI) or (VACCINES/BI))	6
2015/PY	1,203,013
(MERS/BI) or (MERSES/BI)	603
MERS/BI	602
MERSES/BI	1
(vaccine/BI) or (VACCINES/BI)	44,445
vaccine/BI	40,577
VACCINES/BI	13,094
BIOSIS	10
(2015/PY AND mers/BI AND vaccine/BI)	10
2015/PY	251,312
mers/BI	1,722
mereses/BI	0
vaccine/BI	159,972
vaccines/BI	64,161
CABA	4
EMBASE	16
MEDLINE	23

BI : Basic Index

PY : Publication Year

5 最完整人工索引建製詞典: **Lexicon**

各資料庫瀏覽搜尋索引或者詞典檢索

The screenshot shows the 'Term Explorer' window with the 'EXPLORE THESAURUS' tab selected. The search term 'MERS' is entered in the 'Term:' field. The results show 'Middle East respiratory syndrome (59)' as the primary term, with a list of broader terms (Broader (5)) including 'Disease, animal (67402)', 'Infection (95204)', 'Respiratory infection (5499)', 'Viral infection (54607)', and 'Respiratory system disease (8777)'. A red box highlights the 'Broader (5)' section, and a red arrow points to the 'Apply as Individual Terms' button at the bottom right. A blue arrow points to the 'MERS' search term, and a red arrow points to the 'Broader (5)' section, with text indicating that 'MERS' can be found as a synonym for 'Middle East respiratory syndrome' or that 'Broader' can be used as a keyword for upper-level terms.

輸入MERS，可找到相關詞 Middle East respiratory syndrome
或者可選擇Broader為關鍵詞的上位用法

Apply as Individual Terms Apply as Term List (Q#)

6 指令自動生成

The screenshot shows the command generation interface with the command: `("Middle East respiratory syndrome")/CT and 2015/py`. A red arrow points to the 'Submit' button, and a text box indicates that pressing 'Apply as Individual Terms' will automatically display the results, which can then be modified.

按下 Apply as Individual Terms 指令會自動顯示，可以自己修飾與更改

Submit

7 取得不同資料庫的查詢筆數

L3	("Middle East respiratory syndrome")/CT and 2015/py	
	CAplus, DWPI, BIOSIS, CABA, EMBASE, MEDLINE	
	CAplus	23
	DWPI	
	BIOSIS	2
	CABA	0
	EMBASE	5
	MEDLINE	0

8 可將利用 Lexicon 限縮下來的文獻結果(L3)，當做檢索指令並且限定於疫苗(vaccine)研究。

L4	L3 and vaccine	
	CAplus, DWPI, BIOSIS, CABA, EMBASE, MEDLINE	
	CAplus	5
	DWPI	
	BIOSIS	1
	CABA	0
	EMBASE	1
	MEDLINE	0

➤ 結論:

L1	MERS and vaccine and 2015/py	
	CAplus, DWPI, BIOSIS, CABA, EMBASE, MEDLINE	
	CAplus	18
	DWPI	6
	BIOSIS	10
	CABA	4
	EMBASE	16
	MEDLINE	23

VS

L4	L3 and vaccine	
	CAplus, DWPI, BIOSIS, CABA, EMBASE, MEDLINE	
	CAplus	5
	DWPI	
	BIOSIS	1
	CABA	0
	EMBASE	1
	MEDLINE	0

L1 為使用縮寫 MERS 關鍵字直接進行文獻查詢。

L4 為使用 CAplus 的 Lexicon 進行文獻查詢，可查詢更為**精確**與**限縮**的結果。
