Market validation

Primary source of market validation – in-person interviews by product management; commercial and editorial staff.

Consistent Feedback Themes

**Discoverability**

*When shown special reports section in discussion: “Oh I hadn’t realised you had that. You should do a much better job of highlighting it.”*

**Engagement**

*“From your daily emails it’s not particularly clear that you can offer me specialist analysis (not just news) in my sector.”*

**Mobile Optimisation**

*“My day starts at 6.30am on my mobile as I work with Asia – I should have access to all I need whilst on the move.”*

**Data in Context**

*“I update members with quarterly financials for companies in our syndicate. The data you have will support that research. The depth of the data [you showed me] isn’t obvious to me, at first glance”*

Interviews By Segment

- Law and Insurance / 17%
- Ship Owner/Operator / 9%
- Finance / 3%
- Shipping Services / 16%

Interviews By Location

- Europe / 25%
- Asia / 16%
- Americas / 2%

The Intelligence

Containers
Core themes for shipping in 2017

**Volatility** and lots of it

The road ahead will be bumpy. Expect to see low, but persistently volatile, freight rates as well as commodity prices. The game is to find opportunity amid the threat.

**Flexibility** is expensive but necessary

Future proofing is key. There is no single strategy convincing enough to support a technology decision for the full life-span of a ship any more.

**Access to capital** reaches critical mass

Increasingly selective financing (both bank debt and equity) will ultimately lead to consolidation and corporatisation.

**Cyber risk** should be worrying more people

The hacking threat is a part of the picture, but this is about the connectivity between machines and people – Big Data.

**China** is still the answer to most questions

China, the engine of growth, is in transition. The question remains – what does China’s new normal look like?

**Regulation** is worrying our customers

From Ballast Water to sanctions, the flood of rules and regs is increasing in complexity and volume. Expect more regionalism in the mix and a new IMO approach.

**Consolidation** is inevitable but not uniform

Size matters more than ever, but it’s what you do with it that counts. Expect economies of scale at the top, niche plays at the bottom and a squeezed middle.

**Black swans** could yet change everything

Expect the unexpected and remain nimble enough to adapt your strategy. Well managed risk and discipline are good options, but luck helps.
The Lloyd’s List advantage

Lloyd’s List offers you a distinct advantage as you face intense competition of the global marketplace.

- Save time by giving you all the business intelligence you need in a single easy-to-use system;
- Provides in-depth insight into the global trade;
- Helps you make better-informed strategic decisions that save money and reduce risk;
- Delivers accurate, comprehensive and timely competitive intelligence, so you can answer key questions.

Knowing the answers to these vital questions is essential for success in today’s demanding shipping industry. To get the right answers, you need the right insight.
Just the beginning

This is just the next stage in Lloyd’s List’s digital development. Subscribers can expect more improvements and features to come as a result of this latest investment in new technology.
